# PURE GOLD SILVER

Our Registered Accounts Manager has been assisting with Registered Account transfers for over two decades. Invaluable guidance is provided through the process. When speaking to our customers, we find that most Canadians do not know they have the option to purchase physical gold and silver with registered funds, and are pleasantly surprised to discover this option.

## HOW DOES IT WORK?

CRA approved investments into physical gold and silver through Registered Accounts in 2005. There are parameters set by the government on the purity, mint, and storage of the bullion.

PGS only deals with the highest purity and quality of product, making it easy to meet the requirements.

Visit our website for a full overview of the Registered Accounts Process and to download our Questrade Checklist!

Diversify your Registered Investment Accounts into physical gold and silver bullion without triggering taxes! Our program is available for all Registered Savings Plans including RRSP, TFSA, LIRA, RESP, LIF, and RRIF. This is a great way to use existing funds or new contributed funds to acquire investment grade gold and silver.
